

Quality Policy

Search Fund Plus combines artificial intelligence, data analytics, and professional consulting in investment and company acquisition search processes, committing to provide its clients with reliable, fast, and measurable value.

In this regard, we adopt the following as the fundamental principles of our quality management system:

- Understanding customer needs accurately to deliver services that exceed expectations,
- Managing our processes with a continuous improvement approach,
- Basing our decisions on measurable data and objective analysis,
- Increasing the quality awareness of all employees and developing teamwork,
- Regularly monitoring and improving customer satisfaction,
- Ensuring full compliance with legal and regulatory requirements,

are the fundamental principles of our quality management system.

Search Fund Plus periodically reviews its quality objectives and maintains continuous improvement of its performance as part of its core strategy.

Senior Management ensures that this policy is understood, implemented, and sustained by all employees, business partners, and customers.
